

WHERE IS MR. DOIDGE?

Disappearance of the Government Apiarist at Kingston, Jamaica.

A despatch from Kingston, Jamaica, this afternoon said: "Considerable anxiety is felt here regarding the whereabouts of Mr. James DoIDGE, the Government Apiarist lecturer, employed to instruct the peasantry here in bee-keeping."

"Mr. DoIDGE left Kingston for New York April 12 with the intention of purchasing apiarian goods from the Palmer Manufacturing Company, of Jamestown, N. Y. Nothing has been heard from him since then, although it was arranged that he should write immediately upon his arrival at New York."

"As Mr. DoIDGE had a large sum of money in his possession, the popular belief is that he met with foul play in New York and has been robbed. The Government here is said to be moving in the matter, as the fate of Mr. DoIDGE is causing much concern."

Inquiries made at Jamestown, N. Y., resulted in the statement that the Palmer Manufacturing Company, of that city, had heard nothing from Mr. DoIDGE since he left Kingston for New York. His arrival at Jamestown had been expected for some weeks.

BOY SCARED TO DEATH.

Little Willie Gordon Saw a Man Try to Murder a Woman.

Little Willie Gordon, seven years old, was frightened to death at his home at 13 Stanton street this morning.

Sunday Giovanni Tedero, who lives in a rear tenement at 13 Stanton street, fought with his wife and chased her through the Gordon house to the roof. He flourished a knife.

Little Willie was at play in the hall as the screaming woman ran through with the enraged man behind her with the knife. He was frightened into convulsions. He recovered in an hour, and was better yesterday.

Last night he tossed on his bed all night, crying out that he saw the man with the knife, and that he was after him.

At 8 o'clock this morning the boy awoke and immediately went into convulsions again, screaming about the knife. He died in half an hour, literally frightened to death.

CAPTAIN STOPPED RUNAWAY

Acting Captain Gannon Saved a Wealthy Contractor and His Family from Injury.

Acting Captain Gannon, of the High Bridge station, stopped a runaway at Morris Heights this morning after a half-mile chase, and probably saved William McElroy, a wealthy contractor, of 176 Jerome avenue, and his wife and daughter from serious injury.

Deputy Chief McLaughlin, Inspectors Donald and John Grant were also riding horseback with Gannon practicing for the parade. This makes No. 5 to Gannon's credit.

GIRL BADLY SCORCHED.

Gas Stove Set Fire to Seventeen-Year-Old Lizzie Tiemer's Clothing.

A gas stove set fire to the clothing of Lizzie Tiemer, seventeen years old, of 1708 Second avenue, this afternoon, and the girl in her wild endeavor to extinguish the fire ignited the curtains in the room.

By tearing her clothing and rolling around the floor the girl smothered the fire. Then she fainted and was found by the firemen a few minutes later. She was severely burned about the face, hands and body, and was removed to the Presbyterian Hospital.

NO PAPERS FOR SKIFFINGTON

Order Restraining Bureau of Elections Not Vacated by the Supreme Court.

Justice Leventritt, in the Supreme Court, today denied a motion to vacate an order issued April 6 last restraining the Bureau of Elections from issuing a certificate of election to Frank Skiffington, a Giddard delegate to the Twelfth Congressional District Convention.

The convention to elect delegates to the National Republican Convention will be held to-night. The Giddard faction fear that if the Hess crowd remains away from the convention and Skiffington is not permitted to take his seat, there will not be a quorum present.

Looking for Man and Wife.

The New York police are looking for Bimoon White and his wife, Alice, who are wanted for the burglary of the house of J. H. Leighton, at Akron, O., last Wednesday.

On the Hudson Memorial Day.

The pleasure-seeker cannot find a more delightful way of spending Decoration Day than by making an excursion on one of the Hudson River Day Line steamers to beautiful West Point, where one has three hours to inspect the Military Academy, parade grounds and monuments before the down boat arrives, or on to historic Newburg, and look over Washington's Headquarters, or if one desires to spend the whole day on the water, on to Poughkeepsie, where close connection is made with the down boat. Steamer Albany leaves Desbrosses street at 8:40 and West Twenty-second street at 9 A. M. Annex boat leaves Brooklyn at 9 A. M.

OIL QUEEN TO WED; MAE ROGERS, BRIDE.

Daughter of the Millionaire Magnate Will Marry William Coe, an Englishman, Next Monday.

MAE ROGERS, THE "OIL QUEEN."

Mae Rogers, daughter of Standard Oil Magnate H. H. Rogers, is to be the next "oil queen" in New York. She is to be married next Monday afternoon to William Coe, the Englishman, at the Rogers residence, Fifty-seventh street and Madison avenue. As the Rogers family is in mourning the ceremony will be quiet. The bride couple will go abroad on the honeymoon.

Mae Rogers is twenty-five years old and a beauty. This will be her second venture into the field of matrimony. Eight years ago when her family was stopping at the Oriental Hotel, Manhattan Beach, she eloped with Joseph Cooper Mott, the nineteen-year-old son of a wealthy broker, and was married at Sheepshead Bay.

The marriage proved unhappy and two years later she secured a divorce from her husband on statutory grounds. She resumed her maiden name.

William Coe, the bridegroom-elect, is an Englishman, thirty-one years old and a widower. He came to this city about seven years ago from Philadelphia and is in the insurance business. He is a member of the Calumet, Colonial and a few athletic clubs. He lives at the Pierpont, 46 West Thirty-second street.

H. H. Rogers is variously estimated to be worth \$20,000,000 to \$30,000,000. He is President of the Standard Oil Company and right hand man of John D. Rockefeller. Recently he was mentioned in connection with the failure of the United States to purchase the Danish West Indies. It was alleged that he had defeated the deal because a commission of \$400,000 was refused him. He is sixty-seven years old and of uncommon physical and mental vigor.

Forbidden by her father and mother to meet the man she loved, pretty Maggie Klotz, sixteen years old, attempted to kill herself by drinking carbolic acid in the woodshed back of her house, 310 Stagg street, Williamsburg, early this morning.

She was taken to St. Catherine's Hospital, where she lies between life and death.

The girl lived with her parents. She worked in a department store. For a long time she had known and loved George Boescher, four years older than herself, who lived near by at 97 Morgan street. The young man called regularly to see her. The two were happy till Mr. and Mrs. Klotz interfered.

"You are too young to love anybody," said Maggie's mother to her a short time ago. "I have nothing against George, but he must not call on you any more." In vain the girl protested her love for him. Her father and mother were determined.

"Come home," she said sternly. They went. Her father was waiting. "If you ever do this again," said he, "I'll put you away for disobedience."

Mrs. Klotz went across the street. "It's no use," cried the weeping girl. She ran to the woodshed, snatched a bottle of carbolic acid and rushed to the woodshed. Then she swallowed the poison. Luckily the bottle was nearly empty.

Pale and screaming with agony, she staggered to the house. "For God's sake," she cried to her brother Charles, "help me! I'm dying!" Ambulance Sergeant Bodkin took the girl to St. Catherine's Hospital. The father and mother are heartbroken.

Her Husband is Missing.

The police have been asked to find George Blumenthal, twenty-nine years old, of 128 Livingston street, Newark, N. J. He is married and has a two-year-old child.

Conductor Dropped Dead.

James Murray, a well-known conductor on the Eastern Division of Erie Railroad, dropped dead in the parlor of the Pioneer House, Port Jervis, today.

RHEUMATISM

Distorts Muscles, Shatters Nerves, Stiffens Joints.

is due to an acid poison which gains access to the blood through failure of the proper organs to carry off and keep the system clear of all morbid, effluvia. This poison through the general circulation is deposited in the joints, muscles and nerves, causing the most intense pain.

Rheumatism may attack with such suddenness and severity as to make within a few days a healthy, active person helpless and bedridden, with distorted limbs and shattered nerves; or it may be slow in developing, with slight wandering pains, just severe enough to make one feel uncomfortable; the tendency in such cases is to grow worse, and finally become chronic.

Like other blood diseases, Rheumatism is often inherited, and exposure to damp or cold, want of proper food, insufficient clothing, or anything calculated to impair the health, will frequently cause it to develop in early life, but more often not until middle age or later. In whatever form, whether acute or chronic, acquired, Rheumatism is Strictly a Blood Disease, and no liniment or other external treatment can reach the trouble. Neither do the preparations of potash and mercury, and the various mineral salts, which the doctors also prescribe, cure Rheumatism, but run the digestion and break down the constitution.

A remedy which builds up the general health and at the same time rids the system of the poison is the only safe and certain cure for Rheumatism. S. S. S., made of roots, herbs and barks of wonderful power, purifying the blood, attacks the disease in the right way, and in the right place—the blood—and quickly neutralizes the acid and dissolves it. It purges the system, stimulates and reinforces the overworked, worn-out organs, and clears the system of all unhealthy accumulations. S. S. S. cures permanently and thoroughly, and keeps the blood in a pure, healthy state.

Mr. J. C. Kelley, 123 W. 15th Street, Indianapolis, Ind., for eighteen months was so terribly afflicted with Rheumatism he was unable to feed or dress himself. Doctors said his case was hopeless. He had tried fifty-two prescriptions that friends had given him, without the slightest relief. A few bottles of S. S. S. cured him permanently, and he has never had a rheumatic pain since. This was five years ago.

We will send free our special book on Rheumatism, which should be in the hands of every sufferer from this torturing disease. Our physicians have made blood and skin diseases a specialty, and will give you an information or advice wanted, so write them early and free, about your case. We make no charge whatever for this service. Address, SWIFT SPECIFIC CO., Atlanta, Ga.

TEN CENTS TO CONEY.

New Rate Went Into Effect To-Day—Mr. Rossiter Talks.

Ten cents between Coney Island and New York was the new rate put in force on the surface lines of the Brooklyn Rapid Transit Company this morning.

The change was accomplished without any appreciable falling off in the bulk of travel, and on the statement of the company officials without grumbling on the part of the patrons.

"Everything points to the fact that suburban residents are pleased with the new order of things," said President Clayton L. Rossiter.

Better accommodations, more chance to obtain a seat between the city and their homes, the curtailment of an objectionable element of patronage, are the various reasons advanced by Mr. Rossiter for the suburbanites' delight in paying ten cents for what they previously got for a nickel.

"We have ordered 200 new cars, 25 of which are delivered," said Mr. Rossiter, "and will be put on to accommodate the Memorial Day crowd. We will have a service better by 500 cars than last Summer. Our aim is to build up our suburban traffic by giving every passenger a seat."

"Books containing twenty tickets have been placed on sale for B. They are good all Summer and are not confined to residents."

FARE TO ROCKAWAY.

Hotel Keepers and Property Owners to Ask that it Be Reduced to Ten Cents.

While the hotel keepers at Rockaway Beach, where the season opens to-morrow, are in high glee over the ten-cent fare to Coney Island, believing the doubling thereof will direct thousands to the more distant beach, which can be reached for fifteen cents, they will try and have the ride reduced to ten cents.

Louis A. Phillips, the lessee of the Pierpont Hotel, and president of the Seaside Property Owners' Association, will be held next week to discuss the subject.

BLOOMINGDALES' MAY DAY.

Outing for Young Employees of the Big Uptown Store To-Morrow.

The Bloomingdale Brothers' Employees Mutual Aid Society has arranged to hold a May party on Decoration Day in Central Park for their junior members, and great preparations have been made for the event.

Seventy-five of the firm's delivery wagons will be decorated and used for the youngsters' transportation. The affair will be managed by the directors of the Mutual Aid Society, and under the chaperonage of Miss H. Edith Kessler.

Pin Your Doctor Down

and make him tell you honestly whether, in case of stomach trouble, it is better to drug the stomach or rest the stomach. The chances are nine hundred and ninety-nine in one thousand that he'll tell you the latter. How can he tell you otherwise? If your legs get tired from too much walking, do you doctor them? No, you rest them. Now your stomach is tired—over-worked—used up—what will you do for it? You have only to use your good common sense to see that rest is what it needs. Then the question comes—How rest it unless you stop eating? Simply by adding to your diet a food that contains only those qualities that are nutritious and others having been eliminated and that is predigestion. Such food is:

(An Ideal Health Food)

GRAIN-HEARTS

(A Delicious Breakfast Food)

Its life giving qualities pass into the system immediately on being received into the stomach without any action on the part of the stomach.

Don't take our word for these things. Try Grain-Hearts for a reasonable length of time and note the result. You will feel the effects throughout your whole system. The stomach will take a much needed rest and the nerves will receive a wealth of nutrition they have long been in need of.

SIX INJURED IN RUNAWAY

Cab Containing a Woman and Three Children Turned Over.

A horse attached to a cab containing a mother and three children ran away in Fifty-ninth street this afternoon, and after badly injuring a governess and a son of Jules Trieste, hat manufacturer of 14 Waverly place, overturned the cab and threw the occupants into the street.

The horse became frightened in front of the New York A. C. house and galloped madly up Fifty-ninth street.

The driver, James Connelley, of 124 West Thirty-first street, tried with all his strength to get the horse under control. At Seventh avenue the governess, with Trieste's son, was crossing the street.

Both were struck by the horse and thrown to the street; the cab did not touch them, though. Their clothes were torn and they received several bruises, but were not seriously hurt. They were treated by Dr. Clark, of Roosevelt Hospital, and left for home in a cab.

A little further on the horse stumbled. The driver was thrown clear over the horse and the cab turned topsy-turvy. The woman and the three children were precipitated to the paving stones and received painful bruises. The woman refused to reveal her identity.

Donnelly was taken to Roosevelt Hospital with one foot broken and his body badly bruised.

THE DEAF SHALL HEAR

The Head Noises—The Discharging Ears and Catarrh SHALL BE CURED.

Are you deaf or growing deaf? Have you head noises? Do your ears discharge? Or is it catarrh? There is no excuse for it—You can and SHALL BE CURED.

For 20 years I was deaf. My ears hummed and buzzed. Most of the time discharged, and I had catarrh. I spent a fortune being treated and TORTURED by doctors and specialists. I tried every known treatment and device—ear drums and ear phones, nearly all made me worse—none gave me any permanent help. Finally I CURED myself by Galvanic Electricity. Now I am ready and able to do as much for you. I can and will save you wasting time and money as I did and risking permanent injury from DOCTOR TROTTER.

Come to my office and talk it over. I will not charge you a cent for advice and full information, and the call is bound to do you good whether you decide to be cured or not.

I extend a welcome hand to all visitors who are interested in this noble work I have on hand, and I ask those who are suffering from DEAFNESS, HEAD NOISES, DISCHARGING EARS or CATARRH to call on me at once or write and learn (without charge or cost) how they may be cured.

THE TINDALL CURE IS SURE.

I am sincerely grateful for the great blessing that came to me when I was permitted to find the means of a cure from my years of almost total deafness, and I wish most sincerely to extend the same blessing to every afflicted one in the world. BUT I do not want any one to take ANY RISK. If there are any that my discovery will not cure I do not want them to expend their money for the same. Hence, to every person taking my cure I POSITIVELY GUARANTEE IN WRITING AN ABSOLUTELY SAFE AND PERMANENT CURE OF DEAFNESS, HEAD NOISES, DISCHARGING EARS, OR CATARRH, OR REFUND EVERY CENT PAID.

There is NO CATCH, NO RISK, NO CONDITIONS, NO SUBTERFUGE. Simply if you are not cured and entirely satisfied YOURSELF—YOUR MONEY REFUNDED.

Is this plain? Can any one be more fair? Can any one do more? You are cordially invited to call or write me. W. J. TINDALL, Pres.

THE W. J. TINDALL COMPANY,

46 WEST 34TH STREET (Bet. Broadway & Fifth Ave.), NEW YORK CITY.

Office hours: 9 A. M. to 5 P. M. Saturday evenings until 8. (No Sunday hours.)
